

*****Calling All LP, LPA, PLP, LCSW, LMFT, LPC and LSOTP Providers*****

The Texas Department of Family and Protective Services (DFPS) continues to work closely with providers across the state to find ways to strengthen the services provided to the families we serve. We are excited about the New Evaluation and Treatment (E&T) Services Provider Enrollment, which is currently open for application and enrollment. We have made improvements to E&T services such as allowing for reimbursement for travel to provide services in designated underserved areas of the state and reimbursement for missed appointments.

In order to become a contracted E&T Provider you must be actively enrolled in the Texas Medicaid Program and contracted with each Managed Care Organization (MCO) that covers the geographic areas served by the provider. Please read the entire Provider Enrollment document for details.

Please click [here](#) to go to the procurement website. Next, click on "Package 1" to download the procurement. The application instructions and forms are referenced in sections 5.6 through 5.9, and the Point of Contact for this procurement is listed in section 1.2

Thanks in advance for your time, attention and consideration into helping DFPS provide quality services to our families.
